

KINDERGARTEN GRADUATION SPEECH MATERIAL

Researching the stories and events of the past year at kindergarten can give you all the material you need. Indeed visiting the kindergarten will let you talk to the teachers and see exactly what the children have achieved.

Consider:

- **Projects the graduates completed over the year. For example, learning about hedgehogs and creating a mural with the teacher.**

- **The actual learning on things like numbers, letters, words, nature and art.**
- **Special events at the school**
 - **Charity events**
 - **Kindergarten concerts**
 - **Funny stories**
- **The contributions of the parents**
 - **Kindergarten fund raising**
- **The contribution of the teachers**
- **Details on the children such as their characteristics and some of the individual things they have done. Look for areas of excellence too.**

When you gather the material you should be able to use it to:

- **Give recognition and praise to each child individually and to the class**
- **Thank parents for all their support**
- **Thank teachers for everything they have done and the care and love they gave the children**
- **Make your speech fun**
- **Make your speech entirely real to the kids**
- **Illustrate some key messages such as keep on working hard.**
